DAILY ROUTINES / RITUALS

A routine is the usual series of things that you do at a particular time. It is the practice of regularly doing things in a fixed order. A daily routine is having a structured plan and strategy for the day. **As humans we need routine in our daily lives because it creates stability, which helps us to feel safe.**

MY REACTION TO STRESS OR FEAR

There are 3 ways to react in an event of stress, fear or anxiety: **FLIGHT, FIGHT or FREEZE**. In a flight reaction, someone wants to run away. In a fight reaction, someone counterattacks. In a freeze reaction, someone doesn't know what to do anymore. We all differ and everyone has a preferred and automatic reaction.

My usual reaction in an event of stress, fear or anxiety is to:

My specific reaction affects my behaviour in the following way:
(what do you do, how does it make you feel and how does it affect others around you?)

In future would you prefer to react differently when in an anxious and or stressful situation?

NO, my reaction is always appropriate in these situations

YES, I would...

MY VALUES

Values are the things you consider important in your life. Our values influence our behaviour. Positive values contribute to positive behaviour and character. If you know what your most important values are, you can be aware of showing others what you think is important.

Write in the flag what you think is important about your country and how its people live together. Think about: trust, honesty, peace, humour, fun, relaxation, responsibility, commitment, love, courage, etc.

MY PRESENT & MY FUTURE

Memories influence our behavior and the way we think about ourselves. We cannot change what happened to us, however, we can change the way we think about it and respond to it now and in future. **Resilience** is about being able to cope with negative things. There is hope for a better future!

MY PERSONAL GOALS

Write down your goals. Written goals have a way of transforming wishes into wants -> can'ts into cans -> dreams into plans -> and plans into reality. Don't just think it!

THINK IT, INK IT, AND SHARE IT SO THAT YOU CAN ACTION IT!

I CHOOSE TO BE A CONQUERER!

Life as a refugee can be a lonely experience, especially if you are mourning family, friends and things you may have lost. Still, you are valuable to others, Start to influence what is in your own circle of influence: your thoughts, your feelings and your behavior. Remember: **A positive lifejourney, a positive future, it starts with ME!**

POSITIVE THOUGHTS ABOUT MYSELF

Positive thinking means that **you approach negative things in a more positive and productive way**. You think the best is going to happen, not the worst. Positive thinking often starts with self-talk and self-talk is the endless stream of unspoken thoughts that run through your head.

FOCUSING ON MY INNER CIRCLE OF INFLUENCE

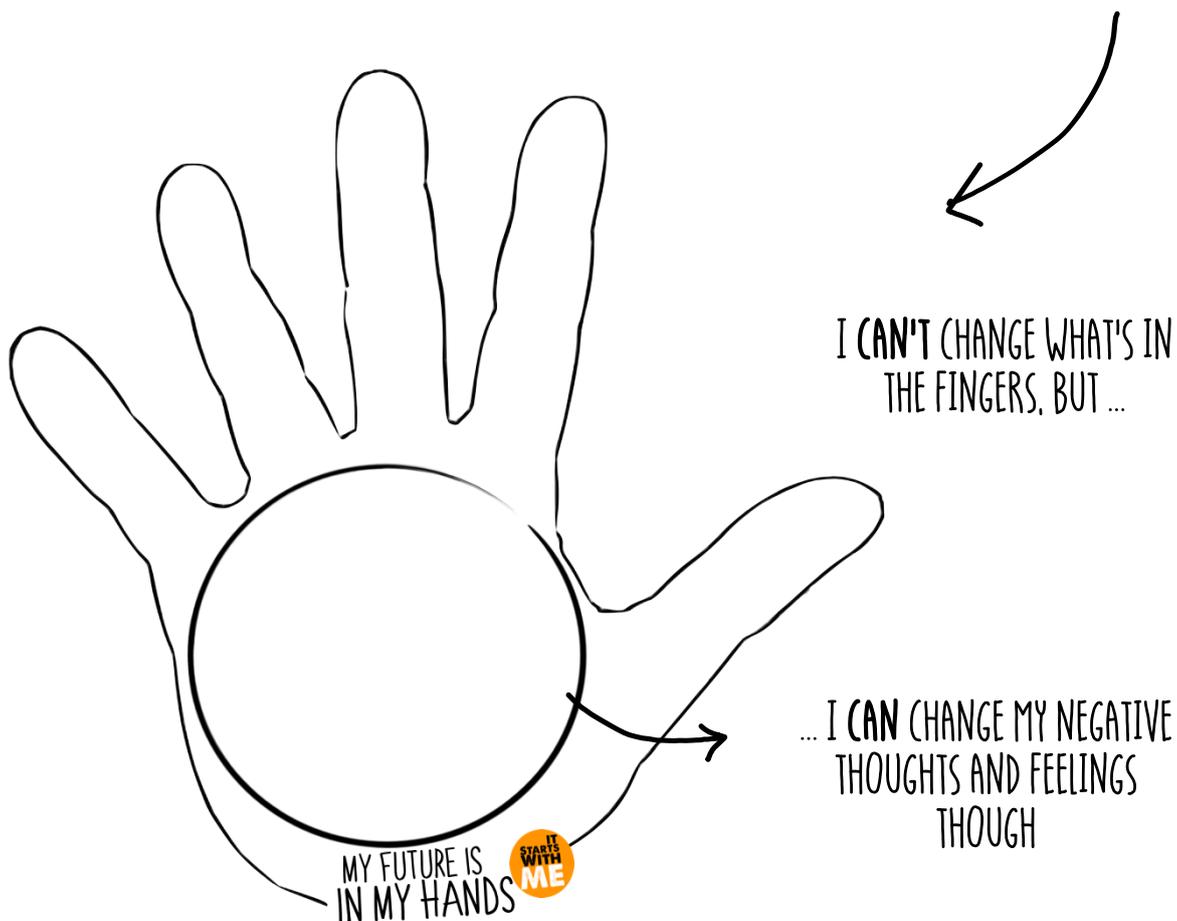

MY INNER CIRCLE OF INFLUENCE → MY THOUGHTS → MY FEELINGS → MY BEHAVIOR

I have the authority and opportunity to choose what is in my inner circle of influence. **I am in charge of my own thoughts.** This is important to know because whatever is influencing you will influence and guide your thoughts. Your thoughts will influence your feelings and your feelings influences your behaviour.

OUTER CIRCLE OF INFLUENCE

There is indeed an outer circle of influence which are things that have an influence on me but I cannot change them i.e. the world, the war, my parents, behavior of others, economy, etc.

Write in the inner circle in your hand your thoughts, feelings and behavior. Write in the fingers of your hand things that has an influence on you.

I AM GOING TO DESTROY THIS PAGE

Use this page to write or draw the things you do not want to think about anymore i.e., events and thoughts that makes you angry and sad. When you are done, cut this page out of your book and destroy it. (Consider: Tearing it up, burning it, or throwing it in the bin)

A large, empty rounded rectangular box intended for writing or drawing.

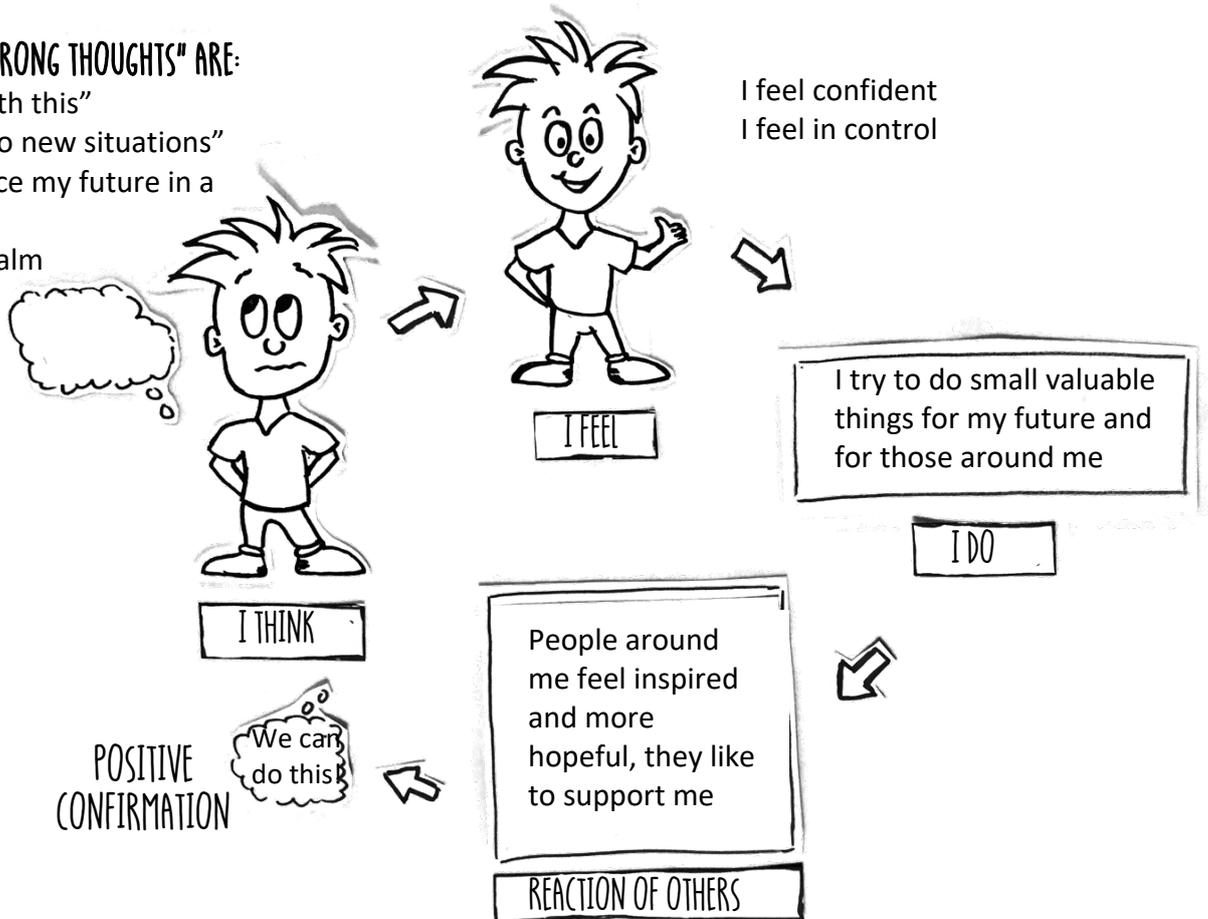

THE POWER OF POSITIVE THOUGHTS

If you start living with positive thoughts, it will give you a positive feeling of self confidence. This feeling will lead to positive behavior and through your behavior you are influencing the people around you. When they experience your positive behaviour you will inspire them to support you and to follow.

EXAMPLES OF "STRONG THOUGHTS" ARE:

- "I can deal with this"
- "I can adapt to new situations"
- "I can influence my future in a positive way"
- "I'm able to calm down again"

One positive thought I want to start with:

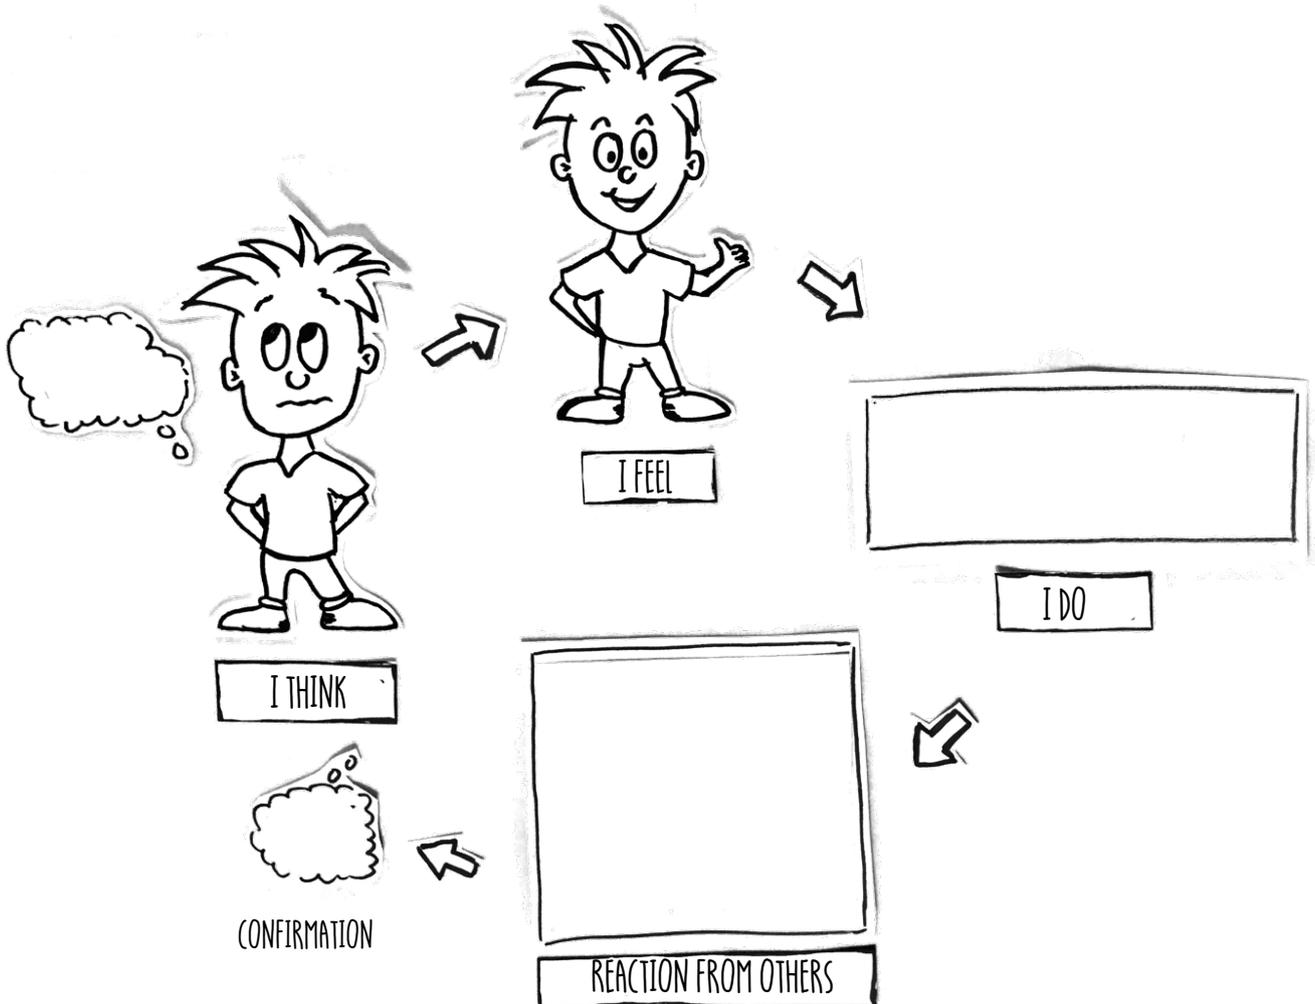

.....

.....

.....

THIS IS MY POSITIVE SPIRAL.

Fill-in below the one positive thought you want to start with and continue to write down the feeling this thought gives you, your action and how you think others will react.

Speak positive thoughts to yourself Instead of saying, "I want to be happy," say, "I am a happy person." Instead of saying, "I want to be a survivor not a victim," say, "I am a survivor and not a victim!" Say it out loud every day.

POSITIVE PEOPLE AROUND ME

If possible, stay in close contact with your family and invest time in building new relationships and an effective and positive network in your new circumstances. **Interaction and contact with others is a good investment, in the present and in the future.**

Positive people I want to surround myself with:

BUILDING STRONG RELATIONSHIPS

People show and feel their love and appreciation in different ways. According to author Gary Chapman there are five love languages. Knowing and understanding these five languages empower us to understand one another much better. This allows us to action better communication and to build stronger relationships because we understand and have an appreciation for each other.

acts of service
BEING HELPFUL I.E. FIXING SOMEONE'S BIKE OR COOKING A SPECIAL DINNER

physical touch
A CUDDLE OR A FUN WRESTLING GAME.

words of affirmation
COMPLIMENTS, WORDS OF AFFECTION AND WARMTH, PRAISE AND ENCOURAGEMENT

gifts
SURPRISES, WRAPPING PRESENTS BEAUTIFULLY OR GIVING THEM IN A SPECIAL WAY

quality time
YOUR UNDIVIDED ATTENTION. DOING SOMETHING TOGETHER

My preferred love language is:

.....

This is what I do when I show my love or appreciation:

.....

.....

Ask people close to you about their love language

Name + love language

Make a commitment to show your love in such a way that it has meaning for the other person, your partner, child, family or friends.

To strengthen my relations I will start to use these love languages:

.....

MEASURE YOUR TANK

If you had to compare your positive feelings and energy to that of a fuel tank of a car, how would you gauge your tank?

MY TANK IS % FULL

I refuel my tank by doing these things:

.....

Activities that gives me energy

.....

Sports and games I like to play

.....

Music I like to listen to

.....

Movies I like to watch

.....

Books I like to read

.....

Outdoor activities I enjoy

.....

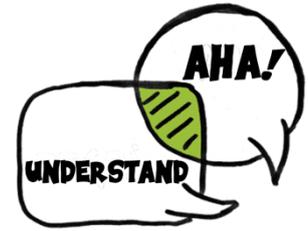

The last time I refueled my tank was:

.....

The more time you spend doing things you love to do, the better it makes you feel. Engaging in activities we love also helps us recall other times we've done them, and those memories increase our self worth. Our favourite activities are often things we do well, which is a factor in increasing our self-esteem.

DISCUSS YOUR FEELINGS

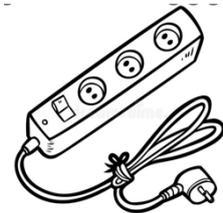

We all want people to understand us and our behaviour. Remember, your thoughts and feelings influences your behaviour, that is why it is important to talk about your feelings. Sharing your thoughts and feelings with others helps them to understand you and your behaviour.

It is not easy to just talk about your feelings but we want to encourage you to use our OBJECT BOX TOOL. Take an object to describe how you feel so that others can objectively, without quick reaction or judgement, understand you better.

Examples

"I feel like an extension lead with a multi plug. Everyone drains energy from me, and I can't recharge myself. I would also like to recharge my own energy somewhere."

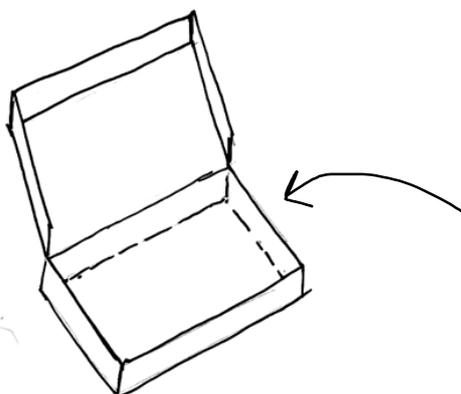

"Yesterday I was like a kiwi, hairy and rough on the outside, but beautiful and sweet inside. Unfortunately, I didn't give anyone the chance to see my beautiful inside."

What object can help you describe how you you feel about yourself, your behaviour, your home and your life?

.....

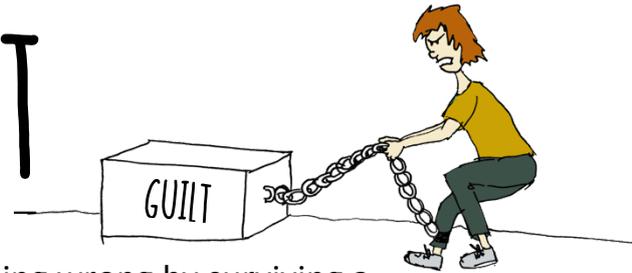

.....

Put all kind of objects in a box and ask people close to you which object they would compare their feeling with. You will be surprised how this object box tool helps to start a valuable conversation.

THINK OF OBJECTS LIKE KEYS, AN EMPTY GLASS, A PHONE, SEEDS, AN EGG, FRUIT, A CHARGER, A CAN OF SODA ETC.

FEELINGS OF GUILT

Sometimes people believe they have done something wrong by surviving a traumatic event when others have not experienced something similar. It creates a feeling of self-guilt which holds you back because it makes you feel unhappy and disconnected.

Do you recognize this feeling in yourself or in others around you?

.....

Reality is that sharing these thoughts and feelings with each other will increase mutual understanding and connection and therefore build and strengthen relationships. In the activity below answer these questions and then engage with others around you and encourage them to also THINK, INK and SHARE this activity.

Does anyone important to you blame you for leaving?

YES NO

Why people who are important to you are happy that you have chosen to leave?

.....
.....
.....

What can you do now that you couldn't have done if you stayed in your country?

.....
.....
.....

SHARING IS A FIRST STEP TO ACTION

In this book you have written about your life journey and your story. Sharing your story with other people will strengthen your relationships and your sense of belonging. Sharing stories, hopes, learned lessons and plans for the future helps to motivate us and gives us momentum to go into positive action.

AFTER THINKING AND WRITING IT IS TIME TO SHARE AND ACTION.

Most important things I have written in this book that I would like to share:

.....

.....

.....

.....

.....

.....

.....

.....

I WILL KNOW WHERE I WANT TO GO IF I KNOW CLEARLY WHERE I AM COMING FROM ...

I am going to share this with:

.....

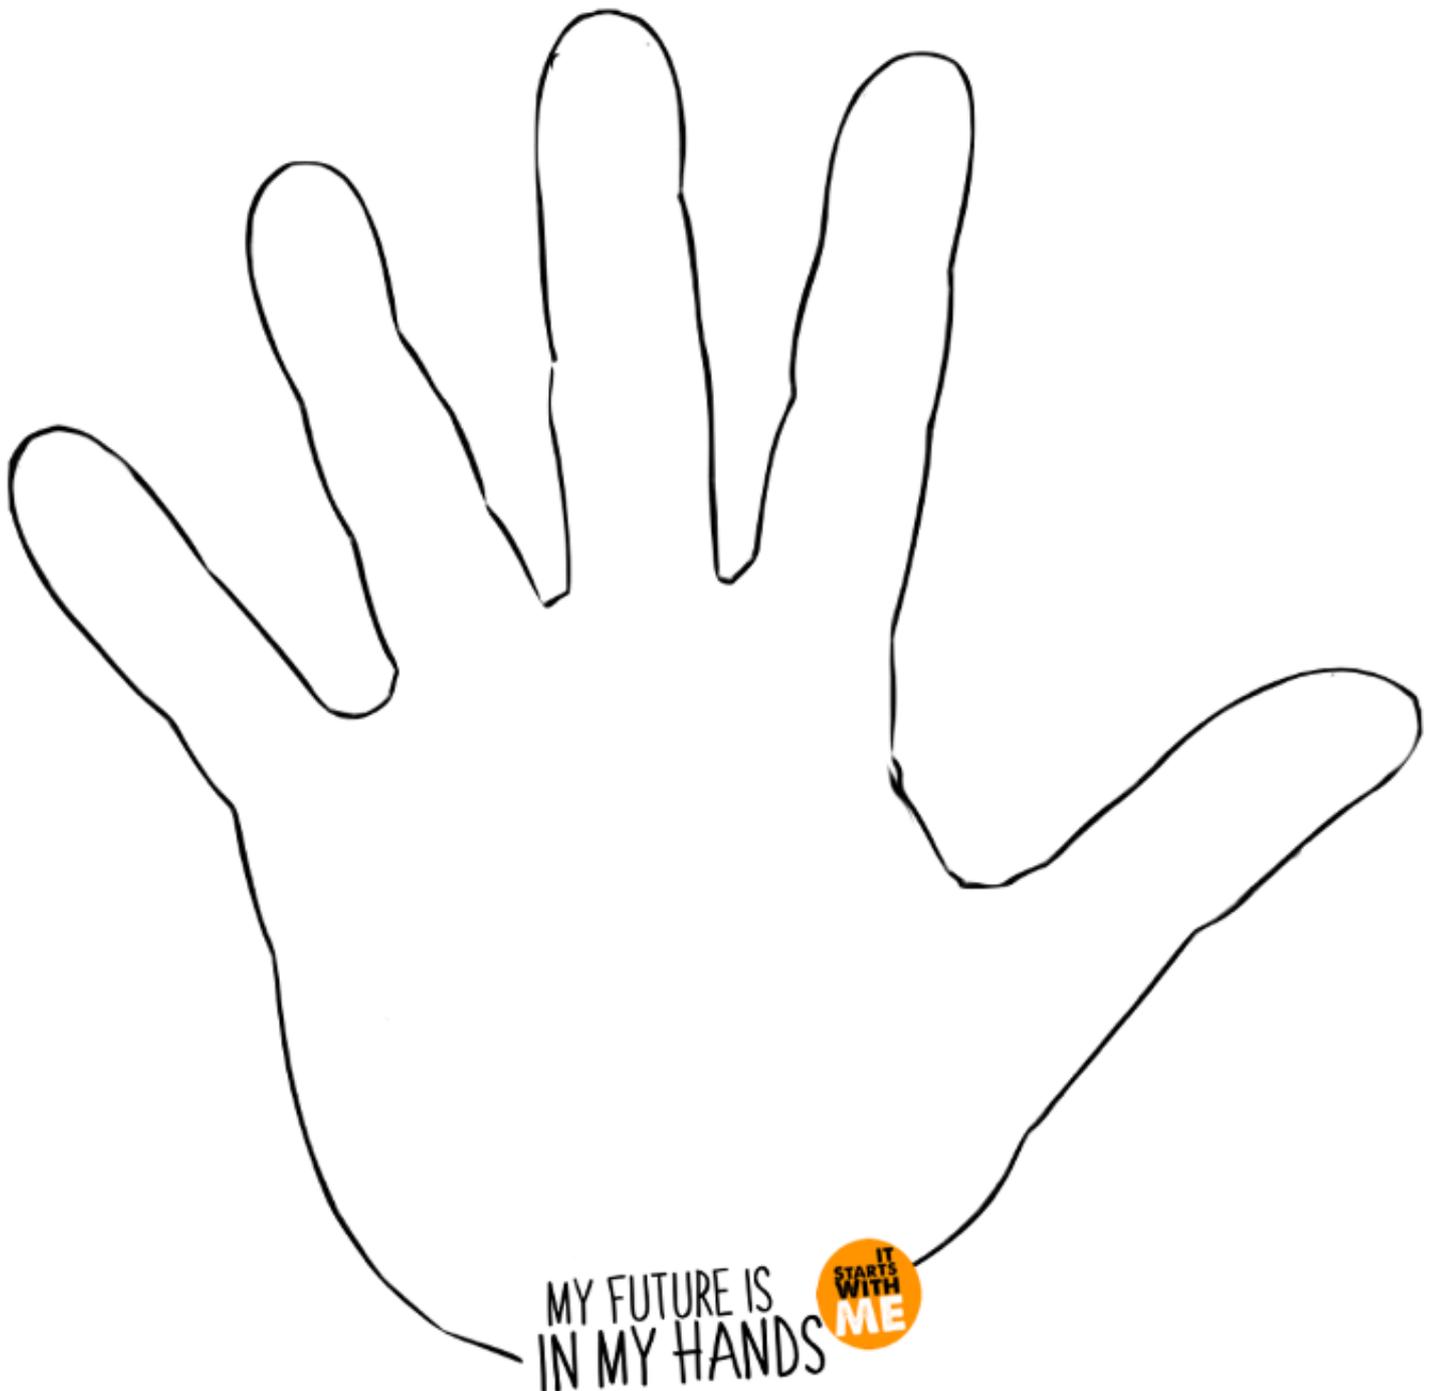

.....

 Encourage people around you to share something about their life, their history or their journey.

 **THINK**  **INK**  **SHARE**  **ACTION**

IT'S IN MY HANDS

THINK about the most important things with regards to your goals, strengths, hopes, feelings, etc., that you have learned in this My Life Journey Book. **INK** it, **SHARE** it so that you can **ACTION** it. [Tip: Go back and read what you have written in the smaller hands throughout the book.]

MY COMMITMENT TO ACTION

After **think**ing, **ink**ing, **shar[e]**ing it is time to **action** your positive life journey and your story. Always remember that IT IS IN YOUR HANDS and even more important, IT STARTS WITH YOU. Put your hand on your heart and say to yourself, “**it starts with ME.**” (take a look at your top 3 values and goals for inspiration)

NOTES & PICTURES

A large, empty rounded rectangular box with a thin black border, intended for writing notes and drawing pictures. The box is centered on the page and occupies most of the vertical space below the title.

This self-help book is the result of much enthusiasm and our desire to empower people dealing with loss and stress. Together with Life Book For Youth, FICE Netherlands and the University of Groningen we developed a life journey book for children from Ukraine. We heard from several parents and organizations that there was also a need for a similar book for parents and young adults.

As Peer3 we therefore decided to create this book. Several professionals and parents have read along and we took their input and advice into account when developing it.

OUR PROGRAMME IT STARTS WITH ME

Developers: Adèle Grosse and Hanne Peerenboom at Peer3

The journey of *It Starts With ME* has its origin in South Afrika. A lot of what we share in this booklet is what Adèle Grosse wrote for her very own victim-to-survivor journey in 2003. In 2014 the path of Adèle crossed the path of Peer3. Since then we've worked on the professionalisation and development of the training It Starts With Me for Dutch parents, children and professionals.

For more information about *It Starts With ME* tools or group trainings, you can contact us by email info@peer3.nl or have a look at www.peer3.nl
